

December 15, 2020

**State Alcohol-Related Laws During the COVID-19 Emergency  
for On-Premise and Off-Premise Establishments as of December 15, 2020**

This review documents alcohol-related policies adopted at the state level during and in response to the COVID-19 pandemic across all 50 states and the District of Columbia. The Secretary of Health and Human Services (HHS) declared a public health emergency in response to COVID-19 on January 31, 2020, under section 319 of the Public Health Service Act (42 U.S.C. 247d). The President of the United States proclaimed that the COVID-19 outbreak in the United States constitutes a national emergency beginning March 1, 2020. The States then also began to declare emergencies and established various orders in response. This review focuses on policies affecting the availability of beverage alcohol during the emergency. Coding relies on multiple official sources of information, including official websites and press releases for state governors, alcohol beverage control agencies, departments of revenue, commerce, and health; state executive orders and proclamations; and state statutes and regulations. Although this review seeks to capture policies specific to the COVID-19 context, these policies may expand upon or remain consistent with policies that were already in place. Where possible, preexisting law has been noted. The “Last Updated” date represents the latest date through which policy changes have been tracked for each state.

Four variables are coded for On-Premise Establishments ([TABLE 1](#)):

1. Whether they are open for on-premise consumption ([MAP 1](#));
2. Whether they are allowed to sell alcohol for take-out or curbside pick-up;
3. Whether they are allowed to deliver alcohol to consumers’ homes; and, if so,
4. Whether they are allowed to deliver alcohol to consumers’ homes without first obtaining a delivery permit.

Three variables are coded for Off-Premise Establishments ([TABLE 2](#)):

1. Whether they are open ([MAP 2](#));
2. Whether they are deemed an “Essential Business” by the state; and,
3. Whether they are allowed to deliver alcohol to consumers’ homes.

On-Premise and Off-Premises Establishments are coded as Open, Open with Restrictions, or Closed. If at least one type of establishment remains open within a category, then the tables capture that establishment category as remaining Open. Open with Restrictions means that some additional restriction is imposed that did not apply prior to the emergency. The remaining variables had one of five answers: “YES” (that state met the variable); “NO” (that state did not meet the variable); “UNCLEAR” (it was not clear from the states’ laws whether it met that variable); “NOT SPECIFICALLY NOTED” (the state law did not address the variable one way or another); and “N/A” (that variable was not applicable – e.g. if the state did not allow delivery, then it could not require a permit for delivery and would be coded “N/A”).

Some states had very little written on their official websites. Other states did not list an enactment or sunset date for the law / regulation / proclamation / executive order. No date included on the table means that there was no date listed.

Sources used for all coding are displayed in [TABLE 3](#).

Disclaimer: Our Digest focuses on policies issued at the state level by all 50 states (and the comparable level for the District of Columbia). State policies are continually changing as the COVID-19 situation evolves, with new orders, restrictions and regulations issued almost daily from many sources including governors, state health departments, and state alcohol licensing boards. In addition, state websites sometimes remove prior documents or overwrite previous versions of documents or web pages, making it difficult to verify policy changes. For these reasons, we cannot guarantee the accuracy, completeness or timeliness of the data presented in our Digest. Please use this document for information-purposes only, and consult with the relevant state authorities if you have specific questions about their policies.

**Map 1: States Allowing On-Premise Establishments To Operate During COVID-19 (as of 12/15/2020)**

**Map 2: States Allowing Off-Premise Establishments To Operate During COVID-19 (as of 12/15/2020)\***

\* This map captures State-level laws. States differ as to how they allow licensing at the county, municipal or local level. In Pennsylvania, all State-run liquor stores closed on 3/17/2020, but wine-to-go and beer-to-go from licensees were still permitted. Sales at the state website ceased 3/16/2020 but resumed on 4/1/2020, accepting a controlled number of orders per day. In Nevada, grocery and convenience stores remained opened during emergency but liquor stores closed 3/20/2020 and resumed delivery and pick up on 5/7/2020 with phased-in reopening.
